The 3rd CD has long been considered a "conservative" district and conservative political leaders in that district allowed that myth to continue for years.

But voters need to know that the district voted:

60/40 for Gore

60/40 for Kerry

&

- 65% of those recently polled are solidly pro-choice and the current Representative appointed candidate actually has 100% voting record with National Right to Life voting for the Terry Schiavo bill and against stem cell research.
- 75% of the voters in Dan Lipinski's district do not believe that the war was worth the dollars spent and lives lost and want a plan to get out now
- 71% of the voters of Illinois' Third Congressional District believe that healthcare should be guaranteed for all Americans.

Be a part of assuring the election of a TRUE DEMOCRAT that represents the TRUE values of the 3rd CD
